TRANSFUSION—VOLUME 22 (1982)

Subject Index

In the Subject Index, the page numbers refer to the first page of the article in which the subject is addressed rather than the specific page on which the referenced subject can be found. (L) refers to a letter on the subject.

Volume 22 (1982), Number One (Jan.–Feb.) contains pages 1–88; Number Two (Mar.–Apr.), 89–172; Number Three (May–June), 173–260; Number Four (July–Aug.), 261–346; Number Five (Sep.–Oct.), 347–466; and Number Six (Nov.–Dec.), 467–552.

A

ABO blood group 352
ABO isoagglutinins 62
Absorption
  anti-Chido 243
  anti-Hy 528
Acid-citrate-dextrose, see ACD
Acid elution test 76, 468
Acquired B antigen 525
Acute leukemia 44
Adenine (see also anticoagulants-preservatives)
  in platelet storage 283
Adenosine diphosphate (ADP), platelet 288
Adenosine triphosphate (see ATP)
AIHA 66, 238
Age, terminology ..... 83(L)
Agglutination, thimerosal-dependent 241
Alanine aminotransferase (ALT)
  donor testing ..... 4, 298, 535(L), 536(L), 537(L)
  phenotype 298
Albumin
  genetic variant 128
  plasma derivative 347
Alloimmunization
  platelets 498
  white cells 374, 498
alpha-1 antitrypsin 347
Alphamethyldopa 355, 521
ALT, see alanine aminotransferase
Alteration of human cells during storage 154
Anemia
  aplastic 62, 70
  autoimmune hemolytic (AIHA) 66, 238
  sickle cell ..... 17, 147, 257(L)
  thalassemia ..... 279, 539(L)
Antibodies
  anti-A after transplantation ..... 400(L)
  anti-B, acquired 525
  anti-C 248
  anti-C3d, monoclonal 507
  anti-CD 90
  anti-cephalosporins ..... 541(L)
  anti-Chido
    immunoglobulin class 90
    absorption of 243
  anti-Co^b 159
  anti-Di^a 246
  anti-D
    augmentation in HDN ..... 257(L)
    immunoglobulin class 90
    reagent selection 468
  anti-E (rh″)-like 147
  anti-Fy^b ..... 402(L)
  anti-Fy, immunoglobulin class 90
  anti-Gy^a 166
  anti-Hil ..... 402(L)
  anti-Hy 528
  anti-Jk^a, apparent 521
  anti-Js^b 161
  anti-K6 (anti-Js^a) 68
  anti-Jk^a, immunoglobulin class 90
  anti-Lu^a, associated with HDN ..... 542(L)
  anti-Lu^b, associated with HDN 251
  anti-P, apparent specificity 185
  anti-Rh 90
  anit-s 174
  anti-S 174
  anti-VS, associated with HDN ..... 83(L)
  anti-V ..... 401(L)
  anti-Vw, associated with HDN 165
  anti-Xg^a 340
  autoanti-A ..... 400(L)
  autoanti-Jk^a 31
  autoanti-K 329
  clinically significant 12
  cytotoxic 317
  hepatitis B surface antigen 300
  HLA 317, 320
  streptomycin-specific ..... 344(L)
Antibody
  detection 107
  elution 359, 528
  identification 147
  immunoglobulin class and subclass 90, 238, 246, 251
  rabbit anti-B 525
  screening 12, 107, 169
  transient 166
  white cell 279
Antibody-antigen complexes 59
Anticoagulant-preservatives
  ACD 154, 295
  CPD 96, 288, 491, 511
  CPDA-1 ..... 102, 158, 206, 210, 283, 295, 479, 532
  CPDA-2 ..... 102, 206, 210, 261, 283, 479, 485, 488, 491
  CPDA-3 ..... 102, 206, 210, 283
  for platelet IgG measurement 295
  glycerol-glucose 121
  hydrocortisone 266
  inosine 102, 266
  pyruvate 102
Anti-C3d
  monoclonal 507
  "monospecific" 507
  radioimmunoassay 6, 273, 511, 515
  red-blood-cell-bound 273
Anti-complement, in antiglobulin sera 269
Anti-D reagents 74, 468
Antigenic differences in albumin 128
Antigens
  Bw35 279
  Dufty, gene effect 475
  Er^a 189
  Gy(a−) 528
  Rh, determination of 194
  Rh, gene effect 475
  $rh^G(C^G)$ ..... 258(L), 259(L)
  Ss, gene effect 475
Antiglobulin test
  as part of crossmatch ..... 12, 89, 107, 169, 399(L)
  enzyme-linked 472
  false positives 273
  positive in Babesiosis ..... 538(L)

radiolabeled 6, 511, 515
reagents 6, 180, 269, 273, 507
solid phase ..... 540(L)
standardization 180
Antihemophiliac factor (see also Factor VIII) 347
Antihypertensive medications 530
Anti-thrombin II 347
Apparent specificity 147, 185
Aplastic anemia 62, 70
Assays
enzyme-linked antiglobulin 472, 475
hepatitis B surface antigen 300
immunoabsorbant, enzyme-linked 475
lymphocytotoxicity 374
macrophage binding 246, 355
microgranulocytotoxic 379
peroxidase-anti-peroxidase 352
platelet-associated IgG 295
rosette for Rh antigens 194, 468
radiolabeled antiglobulin 6, 36, 273, 511, 515
ATP (adenosine triphosphate)
in stored granulocytes 368
in red blood cells 96, 102, 210, 261, 266, 364, 485
platelet 121, 288
Authors instructions 84
Autoanalyzer test 90
Autoagglutinins, associated with LISS 185
Autoantibody
after transplantation ..... 400(L)
IgA predominance 238
in Babesiosis ..... 538(L)
Jk^a, associated with paraben 31
monocyte recognition 355
Autoimmune hemolytic anemia (AIHA)
exchange transfusion in 66
due to IgA autoantibody 238
Automated blood grouping 323

B

B cells/lymphocytes 302
Babesiosis ..... 538(L)
Bacterial sepsis in neonates 151
Bar-coding 323
Beta-blocking agents, blood donors 503
Beta-propiolactone 347
Blocking factor, enzyme-treated cells 143
Blood banking practice 12, 89, 107, 169, 532
Blood bank records 72
Blood cell processors, see cell processors
Blood donors, see donors
Blood filtration, microaggregates 21
Blood groups
Ii 337
Jk(a−b−) phenotype 70, 276
U-variant ..... 257(L)
Blood grouping automation 323
Bone marrow
transplantation 62, 78
volunteer donors 78
Borate glass tubes 326
Blood storage . . . 96, 102, 154, 158, 206, 210, 261, 283, 295, 479, 485, 488, 491, 511, 532
Blood supply, management 532
Blood viscosity 17
Bureau of Biologics/FDA 89,169

C

Cataract 337
C3 54
C4 ..... 54, 243
C-1 inactivator 347
C3d, red-blood-cell-bound
in direct antiglobulin test 273
in hospital patients 511, 515
in normal subjects 511
monoclonal antibody against 507
in vitro 180
Carboxylic acids 111
Cardiopulmonary function 21
Cell membranes 70, 96, 261
Cell processors
freeze-thaw-washing 36, 102
heparin 384
neocytes ..... 539(L)
platelet washing 125
stem cell collection with 217, 388
survey on use 220
temperatures of operation 48
Chemical changes is stored whole blood 158
Chemically modified reagents 74
Chido, removal of antibody 243
Chloraquine dissociation ..... 59, 537(L)
Chloroform elution 359
Cholesterol and red blood cell 2,3-DPG ..... 399(L)
Chronic myelogenous leukemia 305
Citrate-phosphate-dextrose-adenine, see CPD-A
Clutter 173
Coagulation factors 54, 488
Cohn fractions 229, 347
Compatibility test, also see Crossmatch
chloroquine 59
granulocytes 374
Complement coating 6, 180, 269, 273, 511, 515, 521
Component preparation delay 479, 485, 488, 491
Computer simulation, donor facility 234
Continuous-flow centrifuge, see cell processors
Corticosteroids 220
^{51}Cr
platelet survival 197, 491, 496
red blood cell survival .. 96, 102, 154, 166, 210, 261, 269, 479
Cromer blood group 362
Crossmatch ..... 12, 89, 107, 169, 226, 333, 399(L)
Cryopreservation/freezing
platelets 121, 203, 206
red blood cells 36, 102, 254
stem cells 217
Crystalloid, transfusion of 392
Cytapheresis
donors, changes in 302
heparin during 384
peripheral blood for stem cells 388
temperature 48
Cytareduction in leukemia patients 305
Cytotoxic antibodies 317

D

Deformability, red blood cells 96
Delayed transfusion reaction ..... 68, 248, 402(L)
Detailed instructions for authors 84
Dextran sedimentation 217
Diabetes 279
Dimethylsulfoxide (DMSO) 121, 206
2,3 Diphosphoglycerate (2,3-DPG) ..... 210, 266, 399(L), 485
Direct antiglobulin test (DAT) 26, 59, 273
Discriminant profiling 138
Dithiothreitol treatment 111
Donors
adverse reactions 530
ALT phenotype 298
ALT testing 4, 298
bone marrow 78
cytapheresis 302
discriminant profiles 138
lepromin positive 134
medications 530

queueing 234
stimulation 229
Dosage, Rh antigens 194
DR antigen 279
D^u variant
Rh immune globulin for mothers 76
testing 76
test reagents for 74

E

EA rosettes 194, 468
EDTA-dependent panagglutination 111
Ektacytometer 96
ELISA, see assay, enzyme-linked
Elution ..... 258(L), 259(L), 359, 528
Endocytosis 261
Enzyme inhibition by serum factor 143
Enzyme-linked antiglobulin test 472
Erythrocyte, see red blood cells
Erythroid progenitor cells 388
Erythrophagocytosis 355
Ester separation, red cells 26
Exchange transfusion
acquired autoimmune hemolytic anemia 66
effect on bilirubin binding ..... 343(L)
formula for volume of ..... 260(L)
hemolytic disease of the newborn 165, 246
hyperviscosity syndrome 51
neonatal pups 504
septic neonates 504

F

Factor VIII
concentrate 229, 488
during plasma exchange 54
Fetal-maternal hemorrhage 74, 76, 468, 472
Fibrinogen 54, 347, 488
Fibronectin 347, 488
Filters, microaggregate 21
Fresh-frozen plasma
transfusion 392
microwave thawing ..... 401(L)
Frozen red blood cells
biochemically modified 102
IgA in deglycerolized 36
survival 102

G

Genetic variant of albumin 128
Glycerol 203, 254
Glucocorticoids 266
Granulocyte
antibodies 279, 379, 498
allospecific antigens 379
cytotoxi[illegible] 379
energy metabolism during storage 368
transfusion
in acute leukemia 311, 498
in gram-negative sepsis 374
in septic neonate 151, 504
Gram-negative sepsis 374

H

Hairy-cell leukemia, cytapheresis in 308
Hardy-Weinberg equilibrium 379
Hematocrit ..... 17, 260(L)
Hematologic changes in stored blood 158
Hemolysis, fatal ..... 345(L)
Hemolysis, *in vitro* tests 254, 326
Hemolytic disease of the newborn
death due to Rh immune augmentation ..... 257(L)
due to anti-Di^a 246
due to anti-Lu^a, probable ..... 542(L)
due to anti-VS ..... 83(L)
due to anti-Vw 256
due to maternal autoimmune anemia 66
formula for exchange transfusion ..... 260(L)
subclinical due to anti-Lu^a 251
Hemolytic transfusion reaction .. 68, 159, 161, 248, 269, 402(L)
Hemophilia A 229, 347
Heparin, in apheresis 384
Hepatitis
B surface antigen 300, 347
non-A, non-B 4, 298, 347
test specificity 300
Heterozygote, determination in Rh system 194
Hibiscus sabdariffa 338
High frequency antigens 189
HLA 62, 279, 317, 320
Hodgkin's disease, AIHA in 66
Holding period 479, 485
Homozygote, determination in Rh system 194
Hydrocortisone 266
Hydroxybenzoic acid 521
Hydroxyethyl starch (HES)
effect on red blood cell tests 226
repeated use 305
5-Hydroxytryptamine, platelet transport 203
Hypertensive medication, donors 530
Hyperviscosity syndrome 51

I

i Adult phenotype 337
IgA 36, 54, 90, 238
IgG 90, 54, 143, 159, 251, 295, 359
IgM 54, 90, 143, 359
Imferon 163, 341
Immune complexes ..... 54, 521, 540(L), 541(L)
Immune globulin
Cohn fraction II 347
varicella zoster ..... 401(L)
Rh 74, 76, 468, 472
Immune response, primary 248
Immunoenzyme method 352
Immunobead rosette 194
Immunoglobulin
class of blood group antibodies 90
during plasma exchange 54
Immunoincompetence, cytapheresis donors 302
Immunopotentiation 134
Incompatibility
bone marrow transplantation 62
following negative antibody screening 107
serologic 12
Inheritance, Er^a 189
Inosine 210, 266
Iron-dextran, simulating hemolysis is plasma 163, 341

J

Jk(a−b−) 276

K

Kidd 70, 276
Kleihauer's test 468

L

Laboratory staff 333
Laser scanning 323
Lectins 338
Leprosy, transfusions in 134
Leukapheresis
chronic leukemia 305
frequency 220
granulocyte collection with 220

hairy-cell leukemia 308
leukocyte depletion in 48
survey of practice 220
temperature of 48
Leukemia
granulocyte transfusions in 311
hairy-cell 308
platelet therapy in 44
cytapheresis in 305
Lipids, red blood cell membrane 96
"Lost" platelets 197
Low-ionic-strength solutions (LISS) 31, 185, 241, 507, 521
LOX antigen 154
Lymphocyte depletion, cytapheresis donors 302
Lysophosphatidylcholine (LPC) 96

M

Macrophage assay 246, 355
Malonaldehyde, platelet 283, 292
Marrow, see bone marrow
Maternal platelets 125
Massive transfusion, platelet counts in 392
Membrane, red blood cell 70, 96, 261
Methyl esters, hydroxybenzoic acid 521
Mg^{++} in C3d red blood cell coating 180
Microaggregates
filtration 21
pulmonary function 21
Micro D^u procedure 74
Microgranulocytotoxic test 379
Microfilm, records 72
Microtiter plates ..... 540(L)
Microwave thawing ..... 401(L)
"Mimicking" autoantibody 147, 329
Mixed cell populations 352, 197
Monoclonal reagents 507
Monocytes 355
Mononuclear phagocytosis 246, 355
Morphology of platelets during storage 115
Multipotential hematopoietic stem cells 388

N

Neonate
septic, transfusions in 151, 504
thrombocytopenia 125
Neocyte, transfusion ..... 539(L)
Neutrophils, see granulocytes
Null phenotype, in Cromer blood group complex 362
Nurse utilization 234

O

Opsonic factor 488
Outdating, red blood cells 532
Oxygen, P50 210

P

Panagglutination, EDTA-dependent 111
Paraben 31, 521
Paraformaldehyde 295
Paraproteinemia 51
Peroxidase-anti-peroxidase 352
Phagocytosis 246, 355
Phthalate
esters 26
plasticizer ..... 401(L)
Plastic packs, alteration of blood in 154
Platelet
adenine nucleotides 288
age 197
aggregation 121, 283, 292
associated IgG 295
concentrates 39, 115, 125, 283, 292, 491, 496, 498
counts
falsely high 70
in massive transfusion 392
CPD-adenine blood, isolated from 206, 283, 491
cryopreservation/freezing 121, 203, 206
function 39
5-hydroxytryptophane transport 203
hypotonic shock 283, 292
lifespan 197, 491
logistics of production 292
morphology during storage 115
populations 197
production delay 491
prophylaxis 498
relative density 197
storage 39, 115, 283, 288, 292, 491, 496
survival 197, 491, 496
transfusion 39, 44
transportation 496
washing procedure 125
Plasma exchange/plasmapheresis
blood changes during 54
following bone marrow transplantation 62
in hyperviscosity 51
in TTP ..... 540(L)
Plasma, fresh-frozen, see fresh-frozen plasma
Polyacrilamide gel electrophoresis (PAGE) 128, 174, 261
Polyagglutination 111, 338
Polybrene 238
Polynesians, Kidd phenotype in 276
Polystyrene cuvettes 326
Polyvinylchloride (PVC) 102
Polyvinylpyrrolidone (PVP) 238
Posttransfusion hepatitis 4, 298
Pretransfusion testing 12, 89, 107
Primary immune response 248
Processing delay of donor blood 479, 485
Profiles of donors 138
Prophylactic granulocyte transfusion 311, 498
Protein A rosettes 194
Protein-viscosity curves 51
Pulmonary function 21

Q

Quality control, deglycerolization 254
Queueing, donors 234

R

Radioimmunoassay (RIA)
anti-C3d 6, 273, 511, 515
IgA 36
Reagents
anticomplement 6, 273, 511, 515
antiglobulin 269, 273, 511, 515
chemically modified 74
Red blood cells
biochemically effects 102, 485
C3d-coated 6, 273, 507, 511, 515
deformability 96
frozen-thawed 36
function 210
ghost 261, 352
membrane changes 70, 96, 261
oxygen delivery 102, 210
packing 96
potassium 364
sodium 364
storage 96, 102, 210, 261, 266, 364, 479, 485, 488
survival 96, 102, 210, 261, 364, 479
typing
effects of hydroxyethyl starch 226
with positive DAT 59
urea lysis 70

washed ..... 36, 82(L), 400(L)
Reserve bilirubin binding capacity ..... 343(L)
Rheology, sickle cell anemia 17
Rh immune globulin (RhIG)
in D^u variant mothers 74, 76
candidate evaluation 76, 468, 472
Rh system dosage effect 475
Room temperature hold of blood 479, 485
Rosetting technique 468

S

Saline-reactive anti-V ..... 401(L)
Screen microfilters 21
Serotonin release, platelets 283
Sialoglycoproteins (SGP), S and s-bearing 174
Shear rate 17
Sickle cell
anemia 17
disease 147
U-variant in patients with ..... 257(L)
Sodium, red cell 364
Spectrin 261
Ss system 174, 475
Stem cells
cryopreservation 217
transplantation 217
Storage lesion 158, 261
Stractan gradients 197
Streptomycin-specific antibodies ..... 344(L)
Stress, laboratory staff 333

T

T cell depletion, cytapheresis donors 302
T, Tn, Th polyagglutination ..... 338, 345(L)
Thalassemia, transfusion in ..... 279, 539(L)
Thimerosol-dependent agglutination 241
Thrombin time dilution test 384
Thrombotic thrombocytopenic purpura (TTP) ..... 540(L)
Transfusion in
acute myelogenous leukemia 311, 498
gram-negative sepsis 504
lepromatous leprosy 134
massive trauma 392
open heart surgery 320
septic neonates 151, 504
sickle cell anemia 17
thalassemia ..... 279, 539(L)
Transfusion, platelet 39, 498
Transfusion reactions
acute, hemolytic
associated with T-polyagglutination ..... 345(L)
due to anti-Co^b 159
delayed
due to anti-Fy^b ..... 402(L)
due to anti-Jk^a 269
due to anti-Js^b 161
due to anti-K6 68
following granulocytes/platelets 498
fatal 396
iron-dextran simulating 163, 341
nonhemolytic, anti Xg^a 340
prevention by washing red cells ..... 82(L)
Yersinia enterocolitica 396
Transplantation
bone marrow, ABO incompatibility 62
ethical and legal issues 78
HLA match, in kidney 317
stem cells 217, 388
Trichloroethylene elution 359
Type and screen 12, 89, 107, 169

U

Urea lysis, red blood cells 70

V

Varicella zoster immune globulin ..... 401(L)
Vasopressin analogue, donor stimulation with 229
Viscosity, in sickle cell anemia 17

W

Washed red blood cells ..... 82(L), 400(L)
White cell antibodies 279
Whole blood, changes in 158

Y

Yersinia enterocolitica 396

Z

Zoster, varicella ..... 401(L)
